

Eycott Hill Nature Reserve

Connecting people and wildlife
2015 – 2020

Cumbria
Wildlife Trust

Protecting **Wildlife** for the Future

The Eycott Hill project

In 2015 we began a five-year project at Eycott Hill Nature Reserve, funded by The National Lottery Heritage Fund, to combine habitat restoration with restorative low-input farming and people engagement.

Over the five years we have planted 10,150 trees, restored six hectares of hay meadows, volunteers have contributed over 1,200 days of volunteering, delivered 47 skills courses to over 500 people, reached over 1,200 people with 173 art workshops and over 28,000 people have visited Eycott Hill Nature Reserve.

This scrapbook captures the highlights of the Eycott Hill project from 2015 to 2020 through infographics, images and quotes.

This project has been wonderful to deliver and we are excited to see how Eycott Hill Nature Reserve will develop over many years to come. We hope you enjoy reading about the project and can take something away from our experiences at Eycott Hill Nature Reserve.

Thank you

This project has been made possible thanks to National Lottery Players and support from The National Lottery Heritage Fund.

Thank you to everyone who made a personal donation, and to our grant funders:

The Banister Charitable Trust, Biffa Award, Cumbria Waste Management Environment Trust, Esmée Fairbairn Foundation, FCC Communities Foundation, The Garfield Weston Foundation, The National Lottery Heritage Fund and Natural England.

All of whom, collectively, have made the purchase of Eycott Hill Nature Reserve and the whole project possible.

Access & Practical works

December: loading heather brash for heath restoration

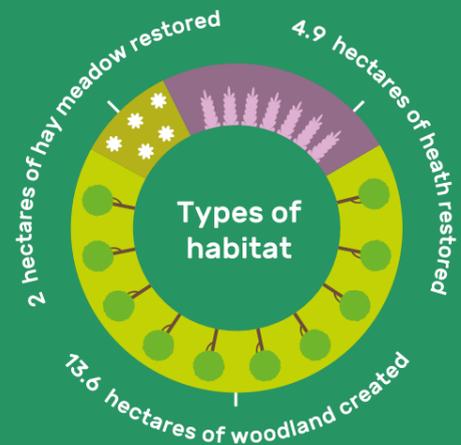

August: spreading green hay to help restore two hectares of flower-rich meadow

August: hedgerow planting

Habitat restoration

Hedgerow planted | 300m

3,000 wild flower plugs

Species planted included oak, birch, aspen, bird cherry, alder, rowan, hazel, hawthorn, holly, willow and juniper.

Prism Arts Partnership

October was the start of a fantastic partnership with Prism Arts, a charity based in Carlisle dedicated to providing accessible art activities for all.

The first workshop programme involved 122 primary school children. After inspirational site visits that included mini-beast hunts, nature rubbings of volcanic rock, and exciting folklore stories, the children got to work illustrating and writing their own stories about Eycott Hill Nature Reserve.

1. 'Febe the Snipe' – Penruddock Primary School, December.
2. Tales about the great outdoors – St Herbert's Primary School, October.
3. Comparing mini-beasts – St Herbert's Primary School, October.
4. Drawing the landscape – Penruddock Primary School, October.
5. Spooky stories in the mist – Greystoke Primary School, November.
6. Hard at work during a school workshop – Greystoke Primary School, December.
7. Searching for mini-beasts – Penruddock Primary School, October.
8. Nature rubbings on the rocks – Greystoke Primary School, November.

"...A very positive experience and one which has enriched the children's curriculum – local geography, literacy, speaking and listening as well as the arts."

Mrs Matthews, Headteacher at Greystoke Primary School

5

6

7

8

215 visitors took part in 14 guided walks

1. Admiring wild flowers – July.
2. Learning all about the geology of Eycott Hill – September.
3. Following the waymarked route – September.

Children enjoyed a wild adventure day in August, including mini-beast searches, scavenger hunts and an expedition to the summit of Eycott Hill.

4. A newt found during the mini-beast hunt.
5. Discovering the creatures found within the grasslands.
6. At the summit of Eycott Hill, hurrah!

Hunting for spiders with Dave Blackledge

Enjoying stories with Ian Douglas

Over 100 visitors attended the Discovery Day in June

Getting to know botany with Keith Watson

Skills courses

14 training courses
132 people learning a skill

Courses included fencing, sedges, wild flower identification, moths, lichens, scything, sphagnum mosses, wildlife recording and livestock checking.

1. Wildlife recording day – September.
2. Beginners sedge course with Pytxis Ecology – July.

3

Cycle rides

46 people took part in guided cycle rides from Greystoke village to Eycott Hill Nature Reserve.

3. Taking a well-earned break at the entrance to the nature reserve – September.

"Just wanted to pass on thanks for a wonderful tour we had a couple of weeks ago...please do pass on our appreciation and amazement at the work that's being done."

Elizabeth Mills – guided cycle ride, March

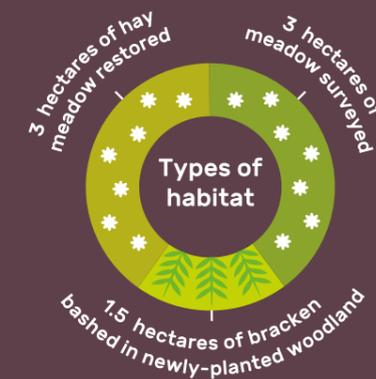

1

2

Volunteers

32 conservation days and 210 days of volunteering

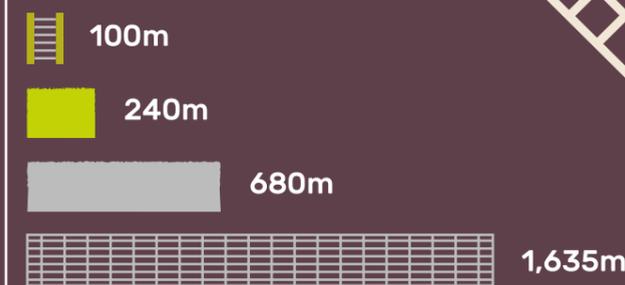

6,000 young trees checked and weeded by volunteers

229 points surveyed for vegetation across the nature reserve

Length of...

- Post and wire fencing built
- Hedgerow restored
- Drystone wall repaired
- Top wiring added

Busy day with the Softrak – March

Winter hedge planting – January

Checking the map

Childrens' Trail Launch

- *The Raven of Eycott Hill* was launched with the Skelton Squirrels Wildlife Watch group in April.
- The easy-to-follow map and story allows children and families to follow the story of the Raven around Eycott Hill.

Bioblitz

4

In July we held a two day Bioblitz attended by almost 100 people who learned about moths, mammals, dragonflies, geology and meadow flora. A total of 275 records were collected for 125 different species and 27 of them had never been recorded before.

4. Busy on the crafts table!
5. Discovering dragonflies.

5

Arts programme

In partnership with Prism Arts, the Edington Centre, Eden Mencap and older people from Amy's Care in Carlisle visited Eycott Hill Nature Reserve in the summer to work on a textiles project, inspired by the flora and fauna in the hay meadows.

An exhibition of this work was held in Carlisle and Penrith libraries from November 2016 to January 2017.

1. Sunny site visits – Amy's Care, July.
2. Learning about Eycott Hill – Amy's Care, July.
3. Designing dazzling dragonflies – Eden Mencap, September.
4. Proud artists at the art exhibition in Carlisle library – November.
5. The Eycott cow, made up of lots of drawings of wildlife found at the nature reserve, on display at Carlisle library.

Eyes on Eycott Hill

Eyes on Eycott Hill is a brilliant animated film produced by adults from the Edington Centre in Penrith in partnership with the Haltwhistle Film Project and Prism Arts.

It combines folklore, stories written by local children, and the geology and wildlife of Eycott Hill into a fabulous tale of adventure. You can view the film, and see how it was made, by visiting our website www.cumbriawildlifetrust.org.uk/prism-arts-project-eycott-hill

Discovery Day

1

2

"Thank you for organising such a brilliant day at Eycott Hill. We were both exhausted after trekking back and forth all day – but it was worth it!"

Lynn and Peter Wilkinson – Bioblitz

3

118 people attended Discovery Days in June and October

1. Brilliant bogs – June.
2. Spooky Halloween faces – October.
3. Fun exploring Eycott Hill – June.

Lots of plug planting!

Field Studies Centre Blencathra – Maple Walk School

20 children from Maple Walk School carried our conservation work for their John Muir Awards in May.

"...thank you for the sessions that we have done...the guys have thoroughly enjoyed themselves and their feedback about the whole experience has been positively glowing!"

Mark Knox, Edington Centre Supervisor

Teamwork! Stop motion animation in action – February

Events

18 walks took place in 2016 including family adventures, geology, magnificent meadows, mini-mammals and dragonflies.

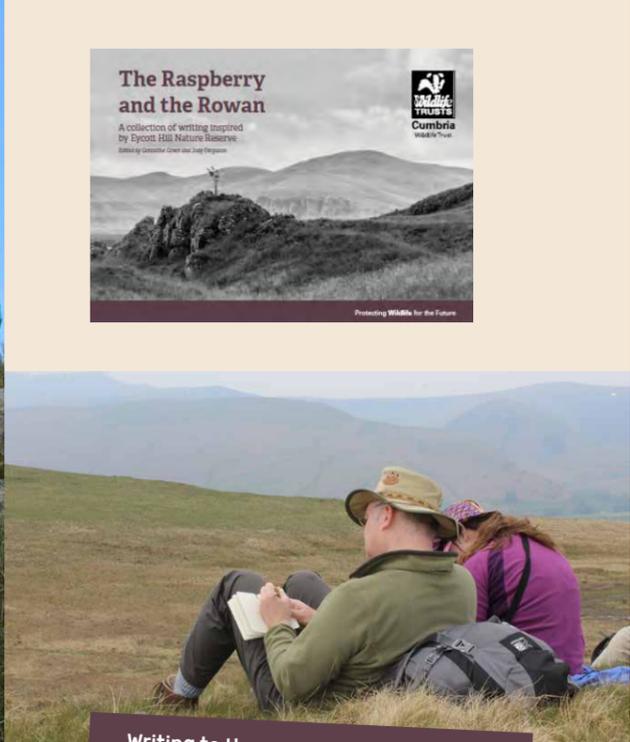

Admiring the view – a wild family adventure, August

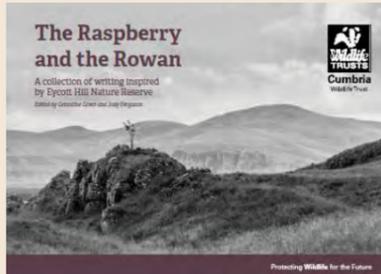

Catching mini-beasts during a family walk – March

Getting the perfect close up – May

Writing to the sound of skylarks – May © Geraldine Green

Creative Writing & Photography

- Two creative writing workshops in May and July attended by 14 people.
- Two photography workshops focusing on flowers and landscapes attended by 19 people.
- *The Raspberry and the Rowan* poetry anthology, a fabulous collection of writing, was the result of the writing workshops led by local poet and creative writing tutor Geraldine Green.

“It’s been a wonderful, inspiring day. Please run more of these, Eycott is a fantastic resource!”

Jean Hill after the photography course – May

Volunteers

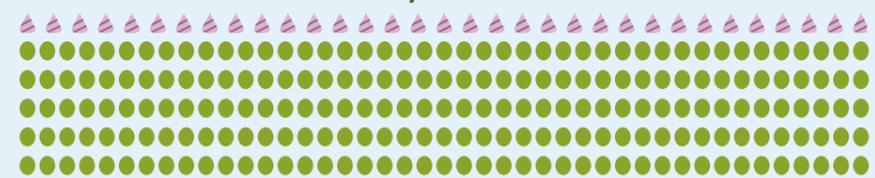

1,450 volunteer hours

10 volunteer event days

111 volunteer cattle-checking days

34 conservation work days

221 days of volunteering

6 hectares of hay meadows surveyed

9,000 young trees checked and weeded by volunteers

Planting trees – February

Meadow surveys – July

Slowing the flow

Throughout 2017, a series of projects were carried out to keep more water on the nature reserve and reduce the speed at which it moves through the catchment.

29 wetland scrapes created

20 drainage ditches blocked

Water from Eycott Hill runs into Naddles Beck, which flows into the River Glenderamackin, a tributary of the Greta that joins the River Derwent in Keswick and flows on through Cockermouth and Workington, communities that have been affected by flooding.

New interpretation on the reserve included information panels on the wildlife and landscape and a spectacular viewpoint.

1

Media placements

BA (Hons) Wildlife Media students from the University of Cumbria worked on short-term volunteering projects in 2017.

1. Emily Dodd blogged about events and filmed some of the 'slow the flow' work. Photo: A volunteer looking out from the summit, September © Emily Dodd.
2. Ben Wolstencroft promoted volunteering through photography and online blog posts. Photo: Dry stone walling, January © Ben Wolstencroft.
3. Jess White carried out a geology photography project. Photo: Volcanic rock, January © Jess White.

2

3

Student and graduate placements

4. Rachel Todner joined the project in June 2017 for a nine-month sandwich placement before returning to the University of Leeds for her final year.
5. Louise Richards completed her voluntary placement in April 2017 and moved from the uplands to the coast, joining the National Trust to work at Formby.

4

5

**"It was a great activity!
My younger daughter made a bee-line for it!"**
Tullie House Nature Explorers' Festival

Making volcanoes!

Eycott Hill Nature Reserve on display at the Tullie House Nature Explorers' Festival in March.

Arts workshops

Five primary schools from Braithwaite, Distington, Greystoke, Penrith and Penruddock enjoyed working with David Napthine, an artist and writer from Prism Arts, to develop stories inspired by a visit to the nature reserve.

The stories were taken to residential homes in Penrith where older residents could contribute their ideas. The finished stories were then used to inspire the schools' performance pieces in 2019.

1. Listening to David in the viewpoint – Distington Community School, January.
2. Getting inspiration for their stories – Penruddock Primary School, January.
3. Found the magic moss – Greystoke Primary School, January.

4

5

6

7

Arts programme

Later in 2017 the schools were partnered with groups of older people or adults with learning disabilities to design and make textile banners or puppets for their performances.

They started by drawing their designs on paper, before making a fabric pattern, then selecting different types of textiles to use.

4. Creating their banner designs – Distington Community School, November.
5. Showing off their work with residents and visitors at Cold Springs residential care home – Penruddock Primary School, October.
6. Team work – Greystoke Primary School and the Edington Centre, September.
7. Sharing designs with older people at Winter's Park residential home – Braithwaite CofE Primary School, September.

**The Trolls of Eycott Hill:
They're bad 'uns!**

The Edington Centre drama group adapted their animated film Eyes on Eycott Hill and created a play based on the story. This toured local schools and residential care homes, headlining a variety performance at the Penrith Playhouse in October.

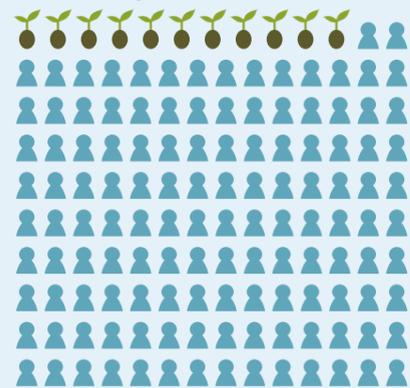

The Edington Centre drama group in costume at Eycott Hill – August

Events

45 events 693 attendees

6,082 visitors

11 training courses

131 people learning a skill

Ready to get arty! – Arty in Nature, April

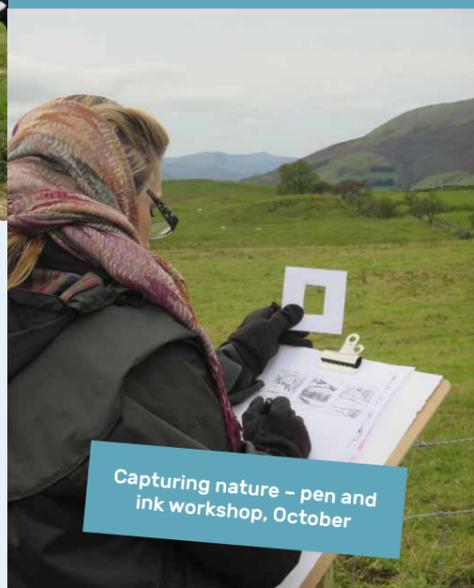

Looking in detail – wildlife recording day, August

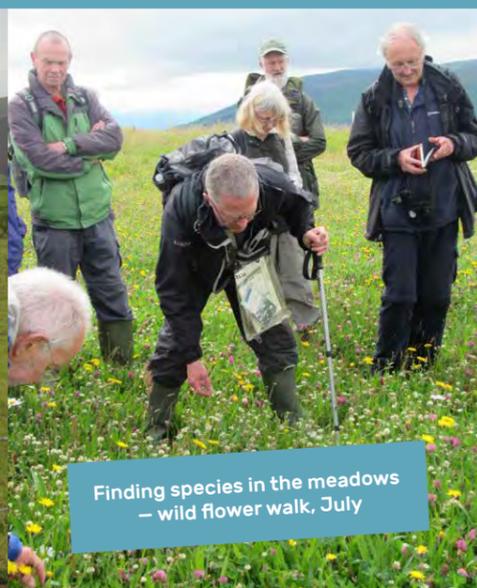

“It’s been a wonderful, inspiring day. Please run more of these, Eycott is a fantastic resource!”

Kirsty Phillips – Moth identification, August

Capturing nature – pen and ink workshop, October

Finding species in the meadows – wild flower walk, July

Making sure those stones are in line – dry stone walling, September

Family fun – Discovery Day, June

“The course was spot on for me, a great mix of serious learning, good company, fun and in the most spectacular location.”
Eric – dry stone walling, September

Volunteers

25 conservation days

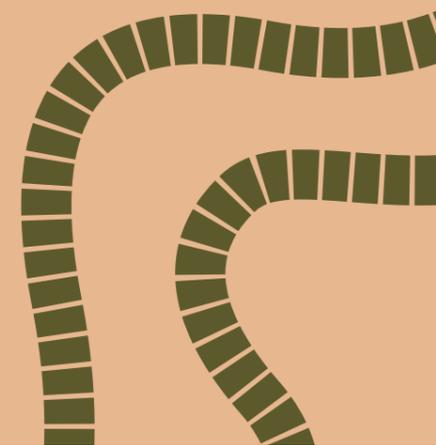

258 days of volunteering

Over 1,000 hours given to help wildlife

2 new boardwalks

1. Taking a well-earned break during boardwalk construction – January.
2. Repairing a section of dry stone wall – August.
3. Construction underway for the short boardwalk – May.

In memory of Stephen Owen

In 2017 the Eycott Hill project and Cumbria Wildlife Trust lost a dear colleague and friend Stephen Owen, who sadly died while taking part in a fell race.

In April 2018 Stephen’s family and friends joined Cumbria Wildlife Trust for a memorial event at Eycott Hill. 325 trees were planted on the slopes leading up from Naddles Beck to create new wet woodland and more than 700 heath plug plants were planted, helping to improve habitats for wildlife.

Stephen’s memorial area of woodland

What has been your most positive experience as a volunteer?

“I particularly enjoy volunteering at Eycott because there is the opportunity to appreciate a range of habitats.”

“Being on site with the herd of cattle when one calved!”

“Satisfaction of tree planting, fixing walls. Joy of watching cattle!”

“No simple answer – I just enjoy it!”

Jenny Ostridge and Jack Beckwith on short-term voluntary placements during the summer.

1

Prism Arts Partnership

Children from Braithwaite CofE Primary School, Distington Community School, Greystoke Primary School, Penruddock Primary School and St Catherine's Catholic Primary School worked with professional artists and project staff to develop tales inspired by the landscape, geology, folklore and natural heritage of Eycott Hill Nature Reserve.

1. Penruddock Primary School learning their story for the performance – December.
2. St Catherine's Catholic Primary School listening to Ali from Prism Arts – June.
3. Greystoke Primary School taking in the scenery at Eycott Hill – June.
4. Braithwaite CofE Primary School get into character – June.

2

In November members of Prism Arts Studio Workshop Group developed characters and stories, made beautiful creatures and site dressings, inspired by their research into the wildlife of the nature reserve.

5. Constructing a violet ground beetle.
6. Making the bumblebee.
7. The finished bumblebee!

2

Education

- 77 children from four primary schools took part in their John Muir Award.
- 2 secondary school visits with 59 pupils carried out their A-Level geography fieldwork.
- Four classroom lessons for Ullswater College for their John Muir Award.
- 80 students from Newton Rigg College visited Eycott Hill as part of their Farm Habitat Management unit.

2 student placements & 1 media placement

Newton Rigg College agriculture students learning survey techniques – May

Skills courses

1. Lichen Identification – March © Emily Dodd.
2. Creative writing workshop – April © Geraldine Green.

“Many thanks for the day; it is always a delight to be outside and inspired by the landscape.”

Susan – Creative writing workshop, April

Geocaches

GeoCaching is an outdoor adventure activity where participants use a mobile phone app or GPS device to go on a treasure hunt. The EarthCaches were developed with the help of volunteers and members of Cumbria GeoConservation.

2 GeoCaches

4 EarthCaches

120 finds logged

"I've been involved in all sorts of projects at Eycott Hill, from dry stone walling and fencing to planting and maintaining trees, hedges and a variety of other plants. It's been great to be involved 'hands on' and see the habitats and wildlife improve."

Alex – Eycott Hill Nature Reserve volunteer

“We found the day really interesting and informative, everyone was very knowledgeable and helpful. Thank you!”
 Atkinson family after the wild flower identification with The Farmer Network – May

The Hill of Dreams

1 outdoor theatre performance,
 120 performers and 95 audience members.

The Hill of Dreams outdoor theatre performance in June was a celebration of the four-year partnership between Cumbria Wildlife Trust and Prism Arts. The performance included tales of tropical seas, legends of battling giants, warnings about mischievous faeries, stories of volcanic eruptions, and the adventures of intrepid explorers.

Children from Braithwaite CofE Primary School, Distington Community School, Greystoke Primary School, Penruddock Primary School, St Catherine’s Catholic Primary School, adults from the Edington Centre and Prism Arts Studio Theatre group wrote and performed the pieces with the support of professional artists from Prism Arts.

“Thank you so much for a brilliant day, I thoroughly enjoyed it!”
 Carolyn Marshall – Eycott Hill volunteer

1. Distington Community School performing ‘The Faeries of Eycott Hill’ © Prism Arts.
2. ‘When the Giants Came’ by St Catherine’s Catholic Primary School © Prism Arts.
3. Penruddock Primary School performing ‘Before the Volcano’ © Prism Arts.
4. Artwork from the project on display in the exhibition marquee © Stephen Trotter.

“The children have a much more developed understanding of the local environment and how precious it is which I was delighted with. I was so proud.”
 Nicola Proudfoot – Class teacher at St Catherine’s Catholic Primary School

Skills courses

2 events with The Farmer Network

1. Introduction to lichens – February.
2. Wild flower identification with The Farmer Network – May.
3. Fungi of grasslands – October.

5 training courses

59 people learning a skill

Education

- 121 students took part in their John Muir Award.
- 62 students studying courses in Animal Management and Agriculture from Newton Rigg College visited Eycott Hill.
- 18 students carried out their A-Level geography fieldwork.
- 13 students studying Wildlife Media at the University of Cumbria captured the wildlife.

“...The charity have done a marvellous job on their reserve! A must visit place with fine views of ole Saddleback aka Blencathra.”
Terry Abraham – on Twitter after his walk in May

Geocaches

1 training course

14 people learning a new skill

"I am greatly encouraged to continue to learn identification and enjoy my wildlife walks armed with better information. Thanks!"

Susan Rendell-Read – Lichen identification, February

Uplands for Everyone Conference

The Uplands for Everyone Conference highlighted the work that the Trust has done at Eycott Hill Nature Reserve and how, through a collaborative programme of restorative, low-input farming, habitat restoration and people engagement, this special place has been put into natural recovery for everyone's benefit.

188 delegates

Farmers, conservationists, representatives from organisations across the country, Cumbria Wildlife Trust members and the general public

7 talks and 17 speakers

1 panel discussion with 6 panel members

1. Sam and Claire Beaumont from Wilder Gowbarrow, Ullswater.
2. Tony Juniper CBE, Chair of Natural England, headlined the conference and spoke about the importance of a partnership-based, holistic approach to environmental recovery. Tony, pictured with Stephen Trotter, CEO of Cumbria Wildlife Trust.
3. The afternoon session included a fantastic panel discussion about public goods, chaired by Caz Graham (freelance journalist for BBC Radio 4) with Julia Aglionby (Executive Director England, Foundation for Common Land), David Harpley (Conservation Manager at Cumbria Wildlife Trust), Candida and Sam Hodgson (farmers at Glencoyne Farm) and Simon Humphries (Greener Farming Programme at Natural England).

"It was great to be part of such a positive event, where farmers and ecologists could openly discuss the many issues facing the uplands and look for potential solutions and opportunities. The overriding message was that working together is the way forward!"

Sam and Claire Beaumont who spoke about their regenerative farming project Wilder Gowbarrow, Ullswater.

Quotes from delegates

"Very inspiring conference, thank you!"

"Thank you for a really interesting and informative day, good mix of presentations promoting good discussion. Really well done!"

5

Eycott Hill project staff welcome Eden Rivers Trust and their group of facilitation fund farmers and partner organisations. They discussed the improvements to the nature reserve that have boosted the natural capital value of the site.

Thank you

We would like to thank each and every volunteer who has been involved with the Eycott Hill project, from helping out at discovery days to building dry stone walls. Your support has been incredible. The support we have received throughout the project has been instrumental to its success – it simply would not have been possible without all the help from the wonderful volunteers.

Thank you to all the organisations, partners and contractors we have worked with over the five years. We hope you have enjoyed being a part of the project and we thank you for your involvement.

Thank you to everyone who has attended an event, taken part in a skills course or just visited Eycott Hill Nature Reserve. Your support has been invaluable and we hope you continue to visit this fantastic upland nature reserve.

Visiting Eycott Hill Nature Reserve

We hope you enjoyed reading all about the Eycott Hill project. Open to the public, experience the wealth of wildlife for yourself.

There is free car parking and cycle racks can be found by the entrance to the reserve.

There is a waymarked path to the summit of Eycott Hill which follows the driest route. However, it is over uneven and sometimes very wet ground so wellington boots are recommended, particularly after heavy rain.

Please keep dogs on a lead to avoid disturbing the wildlife and grazing animals that are on the reserve all-year round.

Eycott Hill Nature Reserve is near the hamlet of Berrier, just off the A66 between Penrith and Keswick.
